

DEVON RIGS GROUP SITES

EAST DEVON DISTRICT and EAST DEVON AONB

Site Name	Parish	Grid Ref	Description	File Code
North Hill	Broadhembury	ST096063	Hillside track along Upper Greensand scarp	ST00NE2
Tolcis Quarry	Axminster	ST280009	Quarry with section in Lower Lias mudstones and limestones	ST20SE1
Hutchins Pit	Widworthy	ST212003	Chalk resting on Wilmington Sands	ST20SW1
Railway Pit, Hawkchurch	Hawkchurch	ST326020	Sections in anomalously thick river gravels containing □eolian□ogical artefacts	ST30SW1
Estuary Cliffs, Lympstone	Lympstone	SX988837	Estuary cliffs of Exe Breccia. Best displayed section of Permian Breccia lithology in East Devon.	SX98SE2
Estuary Cliffs, Sowden	Lympstone	SX991834	A good exposure of the mudstone facies of the Exmouth Sandstone and Mudstone which is seldom seen inland	SX98SE3
Lake Bridge	Brampford Speke	SX927978	Type area for Brampford Speke Sandstone	SX99NW1
Sandpit Clyst St.Mary	Sowton	SX975909	Quarry with Dawlish sandstone and an excellent display of sand dune cross bedding	SX99SE1
Anchoring Hill Road Cutting	Otterton	SY088860	Sunken-lane roadside cutting of Otter sandstone.	SY08NE1
Uphams Plantation	Bicton	SY041866	Exposed deflation surface marking the junction of Budleigh Salterton Pebble Beds and Otter Sandstone, with ventifacts	SY0W1
Dark Lane	Budleigh Salterton	SY056823	A good exposure of Otter Sandstone showing typical sedimentary features as well as □eolian sandstone at the base	SY08SE1
The Maer	Exmouth	SY008801	Exmouth Mudstone and Sandstone Formation	SY08SW1
Beggar Roost Quarry	Rockbeare	SY062941	A good example of the junction between Budleigh Salterton Pebble Beds and Otter Sandstone, with ventifacts	SY09SE1
Duncombe Manor Quarry	Sidmouth	SY160887	Quarry with clean exposure of the calcareous faces of the Upper Greensand	SY18NE1
Hole Pits	Branscombe	SY191890	Site showing the relationship between Middle Chalk and Upper Greensand	SY18NE2
Peak Hill & Mutters Moor	Sidmouth/Otterton	SY105880	Open pasture & forestry with Peak Hill gravel and Mutters Moor gravel	SY18NW1
Rolling Stone	Sidmouth	SY146961	A sarsen monolith thought to have been a Neolithic way-marker	SY19NW1
Higher Sweetcombe Wood	Sidmouth	SY163929	Thick, well exposed section of Loess	SY19SE1
Hazelwood Roadside Exposure	Branscombe	SY205892	Quarried roadside exposure of Upper Greensand	SY28NW1
Great Knowle	Branscombe	SY204893	Strike section of Upper Greensand Chert Beds	SY28NW2
Kilminster Gravel Pit	Kilminster	SY275977	An excellent exposure of the terrace gravels of the River Axe, with the characteristic exotic pebbles	SY29NE1

EXETER

Site Name	Parish	Grid Ref	Description	File Code
Pocombe Quarry (Exonia Park)	Exeter	SX899913	Quarry with good exposure of Permian trachybasalt	SX89SE1
Ferry Road	Exeter	SX964883	River cliff exposure of Permian Dawlish sandstone	SX98NE1
Pinhoe Brickpit	Exeter	SX954945	Quarry with best exposure of shaly Crackington Formation in Devon.	SX99SE2
Bishops Court Quarry	Exeter	SX963915 & SX965915	An excellent display of the large scale dune cross-bedding characteristic of the Dawlish Sandstone	SX99SE3
Heavitree Quarry	Exeter	SX949921	Quarry with good exposure of Heavitree Breccia	SX99SW1
Ludwell Valley Park	Exeter	SX945911	Asymmetric valley and steep headed dry valleys of probably Pleistocene age	SX99SW2
Topsham Road	Exeter	SX940905 & SX941905	Exposures of terrace deposits indicating the former height extent of the Exe Estuary during the Pleistocene, together with exposures of the Permian Heavitree Breccia	SX99SW3
Hamlin Lane – Whipton Playing Fields	Exeter	SX944930 & SX946929	Alphington Breccia, Upper Permian	SX99SW4
Cowley Bridge Road	Exeter	SX911940 & SX911941	Roadside cutting with Upper Carboniferous Crackington Formation	SX99SW5

MID DEVON DISTRICT

Site Name	Parish	Grid Ref	Description	File Code
Knowle Quarry, Crediton	Crediton Hamlets	SS789022	Quarry with exposures of Permian volcanic lava	SS70SE1
Hayne Quarry	Zeal Monachorum	SS714032	Quarry with exposure of Upper Carboniferous Bude formation	SS70SW1
Chapel Downs Road Cutting	Crediton	SS820005	Road cutting with exposure of Crediton Breccia	SS80SW1
Pit Hill Road Cutting	Crediton Hamlets	SS817002	Exposure of Newton St.Cyres Breccia on the sides of a deeply sunken lane	SS80SW2
Blackborough Common	Kentisbeare/Uffculme	ST096090	Scarp hillside covered in bracken & woodland	ST00NE1
Uton Quarry	Crediton Hamlets	SX823985	Quarry with volcanic lava resting on soft reddish Knowle sandstone	SX89NW1

NORTH DEVON and NORTH DEVON AONB

Site Name	Parish	Grid Ref	Description	File Code
Windy Cove, Morte Point	Mortehoe	SS445454	Morte Slates with good examples of bedding cleavage	SS44NW1
Vyse Quarry	Mortehoe	SS490411	Devonian Pickwell Down Sandstone with folding, faulting & other structural features	SS44SE1
Putsborough Sands	Georgeham	SS448411	Good example of the more continental sediments of the Pickwell Down Sandstones	SS44SW1
Codden Hill Quarry	Bishop's Tawton	SS569297	Type locality of the Carboniferous Codden Hill Chert. With structural features including faulting	SS52NE1
Lake Hamlet Road Cutting	Tawstock	SS555317	Pleistocene pebbly Boulder Clay/Outwash Gravel glacial deposits.	SS53SE1
Watermouth	Berrynarbor	SS555483	Lester Slates-and-Sandstones	SS54NE1
Hele Quarry	Ilfracombe	SS533480	Devonian & calcareous slate & crinoidal limestone with structural features	SS54NW1
Rapparee Grove	Ilfracombe	SS528477	Slates and sandstones of the Kintisbury Slates	SS54NW2
Hele Bay	Ilfracombe	SS535480	Limestones and slates of the Coombe Martin Slates	SS54NW3
Tunnel Beach	Ilfracombe	SS513477	Good exposures of the lithology of part of the Kintisbury Slate	SS54NW4
Bittadon 'Felsite' Quarry, Bittadon	Bittadon	SS550408	Type locality for the Devonian feldspathic tuff marking the base of the Pickwell Down Sandstone	SS54SE1
Bittadon 'Felsite' Quarry, Arlington	East Down	SS597400	Devonian feldspathic tuff marking the base of the Pickwell Down Sandstone	SS54SE2

PLYMOUTH

Site Name	Parish	Grid Ref	Description	File Code
Bluff battery	Plymouth	SX459543	Quarried outcrops with rich fossil fauna	SX45SE1
Laira Battery Quarry	Plymouth	SX513562	Quarry with good exposure of Weard Sandstone	SX55NW1
Mainstone Quarry	Plymouth	SX521587	Quarry with a Dolerite/gabbero sill	SX55NW2
Bickleigh Vale Quarries	Plymouth	SX521594	Quarries & cuttings exposing an Elvan dyke.	SX55NW3
Dorsmouth Rock & Quarry	Plymouth	SX538557	Pasture field with a natural outcrop and a small quarry. Upper Devonian pillow lava	SX55NW4
Pomphlett Mill Quarry	Plymouth	SX507538	Middle Devonian Limestone, with fossils typical of the Plymouth Limestone	SX55SW4

SOUTH HAMS and SOUTH DEVON AONB

Site Name	Parish	Grid Ref	Description	File Code
Wembury Point	Wembury	SX498484	Coastline, cliffs and foreshore	SX54NW1
St Anchorite's Rock	Holbeton	SX591472	Cliff top tor & quarry, with basic igneous intrusion into Meadfoot Beds	SX54NE1
Hemerdon Open Pit	Sparkwell	SX572584	Open-pit mine working, with Dartmoor Granite exposures	SX55NE1
Tower's Wood Tramway Cutting	Sparkwell	SX526587	Disused tramway cutting of Upper Devonian slate intruded by a dolerite sill	SX55NW2
Cann Quarry	Sparkwell	SX524596	Elvan dyke, intruding the slate, with granite fragments showing it post dates the Dartmoor Granite	SX55NW5
Lee Mill	Sparkwell	SX581555	Roadside cutting of Middle Devonian slate With fossils	SX55NE2
Plympton St.Maurice A38 Underpass	Brixton	SX545551	Roadside cutting with exposure of a fault and exposure of Upper Devonian slates	SX55NE3
Venn (Brixton) Quarry	Brixton	SX558524	Quarry with a good display of Devonian corals & stromatoporoids	SX55SE1
New England Quarry	Yealmpton	SX595545	Quarry with Gabbo intrusion into Middle Devonian Slate	SX55SE5
Chittleburn Railway Cutting	Brixton	SX541526	Excellent section through a calcareous variant of Middle Devonian slate with some tuffaceous beds	SX55SW1
Steer Point	Brixton	SX544507	Quarry used for brick making. Variations in the state of oxidation and iron content.	SX55SW2
Spriddlestone Quarry	Brixton	SX540514	Quarry showing the second phase of Variscan folding in Devonian rocks.	SX55SW3
Eastern Torrs (Elliot's) Quarry	Yealmpton	SX587519	Middle Devonian limestone, with good evidence of structural relationships	SX55SE2
Rounds Nest Quarry	Yealmpton	SX578514	Quarry of middle Devonian limestone and dolomite. Caves and a lime kiln.	SX55SE3
Yealmbridge Quarry	Yealmpton	SX591518	Middle Devonian limestone with fold structures & deformation	SX55SE4
Shaugh Iron Mine	Shaugh Prior	SX534631 & SX532632	Unique in situ exposure of a limestone gossan lode & intrusive breccia	SX56SW1
Tor Rock	Kingston	SX636488	Natural tor outcrop of pinkish, acid igneous rock	SX64NW1
Pipers Cross Quarry	Kingston	SX637488	Quarry of slate from Dartmouth group and igneous rock resembling rhyolite	SX64NW2
North Efford, Avon Estuary	Aveton Gifford	SX686470	Estuary cliffs	SX64NE1
Horsewell House Quarry	South Milton	SX688421	A good example of Permian exposure & Devonian slates	SX64SE1
The Shippen	South Huish	SX675401	The only good exposure of the Start boundary fault	SX64SE2
Thurlestone Sand	South Milton/South Huish	SX676416	Holocene barred valleys & deposits, sand dunes & coastal erosion	SX64SE3
Waterloo Quarry	Ermington	SX641537	Quarry of Dolerite with veins of Epidote & Tremolite	SX65SW1
North Sands	Salcombe	SX731381	Many of the features of the rocks & structures of the Start Complex	SX73NW1
Rake Railway Cutting	Churchstow	SX722478	Railway cutting	SX74NW1
Hazard Quarry	Harberton	SX754591	Limestone quarry with caves.	SX75NE1

Englebourne Quarry	Harberton	SX773563 & SX772564	Small quarries with Middle Devonian slate & valuable fossil fauna	SX75NE2
Berrystone Rock	Harberton	SX762584	An unusual & interesting outcrop of volcanic rock developed as a tor feature during the Pleistocene	SX75NE3
Harbeton Quarry	Harberton	SX776582	Volcanic tuff with unusual inclusions of limestone & slate	SX75NE4
Loddiswell Mine	Loddiswell	SX721515	Lode in grey, glossy, well cleaved Lower Devonian Meadfoot slate, with complex sulphide mineralisation	SX75SW1
Blackdown Rings (Blackdown Camp)	Loddiswell	SX720520	The site provides a fine view point showing the broad geological features of the South Hams	SX75SW2
Penn Recca Quarries	Staverton	SX763673 & SX762666	Quarries with grey-green, purple & green slate. Important because of its involvement in Medieval slate industry	SX76NE2
Dorsely Barton Quarry	Harberton	SX781604	An accessible open quarry exposing a lava flow	SX76SE1
Bulkamore Iron Mine	Rattery	SX749631	Iron mine with openworks, adits, stopes & shaft	SX76SW1
Petoe Quarry	Dartington	SX761608	Quarry with Middle Devonian limestone beds	SX76SE2
Strete Gate	Strete	SX840463	A good section in the slates & sandstones of the Dartmouth group	SX84NW1
Bourton Hall	Berry Pomeroy	SX808616	An excellent exposure of the thrust/fault structures characteristic of the region	SX86SW1
Afton Tor Quarry	Berry Pomeroy	SX838632	Quarry with Middle Devonian Limestone and a cave	SX86SW2
Ivybridge & the Erme Valley	Ivybridge	SX636562	River Valley & gorge crossing the margin of Dartmoor Granite.	SX65NW1
Wash (Tor Hill Plantation)	Staverton	SX769655	The best exposure of vesicular basalt pillow lava in the South Hams	SX76NE1
Beesands (Sunnydale) Quarry	Stokenham	SX822415	Quarry with Lower Devonian Meadfoot beds	SX84SW1
Bow Creek	Ashprington	SX827565 – SX839572	Good range of lithologies associated with the Ashprington Volcanics	SX85NW1
Galmpton Quarries	Kingswear	SX881561	A wide range of lithological & structural geological features associated with the Torquay limestone	SX85NE1
Waddeton Quarry	Stoke Gabriel	SX878560	The quarry & foreshore show a wide range of lithological & structural features associated with the Torquay limestone	SX85NE2
Scabbacombe Sands	Kingswear	SX918520	This coastal section shows a typical section of the Meadfoot beds lithology with associated folding & faulting	SX95SW1

TEIGNBRIDGE

Site Name	Parish	Grid Ref	Description	File Code
Ledge Wood	Bovey Tracey	SX798791	Viewpoint with view of large area showing varied topography and it's relationship to underlying geology	SX77NE4
Field nr Court Grange	Abbotskerswell	SX856683	East Ogwell limestone exposed along ridge within copse showing karst-type jointed weathering	SX86NE1

Whiteway Barton	Kingsteignton	SX884752	Whiteway Slate (Carboniferous) in bank in farmyard	SX87NE1
Ugbrook Park Quarry	Kingsteignton	SX869780	Disused sandstone quarry. Mainly sandstone with subordinate conglomerates, siltstones and shales. Beds have basal solemark.	SX87NE2
Mount Pleasant Woods	Chudleigh	SX871786	Good upper Devonian Sedimentary sequence	SX87NE3
Whitstone Quarry	Bovey Tracey	SX815792	Exposures of contact between Dartmoor Granite and shaly hornfels (Combe shale)	SX87NW1
Kingsteignton Bypass	Kingsteignton	SX876740	Chercombe Bridge Limestone	SX87SE2
Wolborough Quarry	Newton Abbot	SX852705	Exposures of Ogwell limestone different to other nearby exposures	SX87SE3
Sewage Works	Hacombe with Combe	SX883721	Dolerite overlain by river terrace gravel and sand	SX87SE4
Netherton	Hacombe with Combe	SX88727216	Pillow lavas within the Whiteway Slates	SX87SE5
School Wood Quarry	Dunchideock	SX875871	Disused quarry with good exposures of Permian lavas and their relationship to sedimentary material	SX88NE1
Knowle Quarry, Ide	Ide	SX874895	Quarry with good exposure of Basalt Lava resting on both Carboniferous & Permian rocks	SX88NE2
Holmans Wood Caravan Site	Chudleigh	SX882812	Former limestone quarry	SX88SE1
Dillybridge Brook	Tedburn St. Mary	SX806937	Incised stream section with exposure of Crackington Formation. Fossils	SX89SW1
Combe Cellars	Hacombe with Combe	SX900723	Recumbent folding in Whiteway Slates showing bedding/cleavage relationship	SX97SW1
Arch Brook Creek	Stokeinteignhead	SX90977222 to SX90997228	Red breccias and sandy breccias belonging to the Oddicombe Breccias in close proximity to Whiteway Slates. Landslipping near junction in cliff	SX97SW3
Shaldon	Shaldon	SX93957201	Red breccias, sandstones and mudstones of the Teignmouth Breccias	SX97SW4
Teignmouth Road Cutting	Bishopsteignton	SX92167304 to SX92657292	Red breccias of the Oddicombe Breccias, containing abundant clasts of limestone along with sandstone clasts	SX97SW5
Luxton's Steps	Bishopsteignton	SX89967284 to SX90427282	Red breccias of the Oddicombe Breccias, containing limestone clasts and sandstone, quartz porphyry, sandstone, slate & basic igneous clasts. Exposures also occur of the Luxton Nodular Limestone which is separated by a fault from the Oddicombe Breccias.	SX97SW6
Wobbly Wheel Road Cutting	Shillingford St. George	SX917872	Permian Heavitree Breccia with granitic fragments probably derived from Dartmoor	SX98NW1
Exminster Quarry	Exminster	SX945883	Permian Heavitree Breccia. Massive, worked for the typical local building stone	SX98NW2
Kenton Hill	Kenton	SX958834	Roadside cutting of Dawlish sandstone indicating a semi-arid or desert palaeoclimate.	SX98SE1
A38 road cutting Haldon Hill	Kenn	SX905840	Road cutting exposed Upper Greensand (Blackdown Facies) resting unconformably on Teignmouth Breccia (Permian)	SX98SW1

TORBAY and SOUTH DEVON AONB

Site Name	Parish	Grid Ref	Description	File Code
Barton Quarry	Torbay	SX913671	Important exposures of the bioclastic Barton Member of the Torquay Limestone Formation	
Black Head-Anstey's Cove	Torbay	SX940645	The only significant outcrops of intrusive igneous rocks in the Torbay District	
Brixham Cavern	Torbay	SX925557	A historically important source of Pleistocene vertebrate remains	
Churston Cove-Churston Point	Torbay	SX920569	A thrust-bounded section through the Cherston Member (Frasnian) the highest division of the Berry Head Limestone Formation	
Crystal Cove	Torbay	SX896580	A well-known exposure of a relatively late (i.e. post Variscan) north-south fault zone associated with a remarkable 25m wide zone of crystalline calcite	
Hollicombe Head-Corbyn's Head	Torbay	SX898619	Sandstone dominated sequence within the breccias and conglomerates of the Torbay Breccia Formation, including the stratotype of the Corbyn's head Member, of regional lithostratigraphical importance	
Hope's Nose (south)	Torbay	SX947633	A well-known structural feature in thinly bedded limestones and shales of the Daddyhole Member of the Torquay Limestone Formation	
Petit Tor – Maidencombe (a)	Torbay	SX927663	Stromatoporoid-rich limestones of the Walls Hills Member of the Torquay Limestone Formation	
Quarry Woods Quarry	Torbay	SX89956315	A good exposure of the thickly bedded sandstone of the Staddon Grit and the thin slaty beds between	
Sharkham Point to Berry Head (a)	Torbay	SX930544	?	
Sharkham Point to Berry Head (b)	Torbay	SX943562	Spectacular folds in the Middle Devonian, Berry head Member of the Brixham Limestone Formation	
Sharkham Point to Berry Head ©	Torbay	SX933548	Haematite replacement of Devonian Limestone, associated with limestone breccias and localised developments of botryoidal goethite, limonite and haematite	
Sharkham Point to Berry Head (d)	Torbay	SX935567	Caves with associated deposits, unique in the region	
Goodrington Road Cutting and Quarry	Torbay	SX892581 & SX893581	Middle Devonian Limestone with corals, stromatoporoids & burrows. Dated by a fauna of conodonts. Shows structural features & a fault/solution fissure with Permian infilling.	SX85NE1
Brokenbury Quarry, Churston Ferrers	Torbay	SX897563	Middle Devonian foliated & partly dolomitised limestone with crinoid stems in shaly beds. Late upright folds refold foliation/bedding.	SX85SE1
Barcombe Mews Quarry	Torbay	SX887620	Permian breccia with depositional features	SX86SE1
Breakwater Quarry, Brixham	Torbay	SX932565	Middle Devonian limestone with fissures filled by Permian sandstone containing limestone blocks. Limestone solution features.	SX95NW1

Chapel Hill	Torbay	SX903651	Permian breccia with limestone fragments abutting against middle Devonian Limestone palaeotopography	SX96NW1
Quarry Woods Quarry	Torbay	SX900631	Lower Devonian Staddon Grits. Thickly bedded fine-grained sandstone with structural features. Of interest for conservation in conjunction with the Quarry Woods Reserve	SX96SE1

TORRIDGE and NORTH DEVON AONB

Site Name	Parish	Grid Ref	Description	File Code
Colpit Quarry, Hartland	Hartland	SS279249	Carboniferous Crackington Formation. The fossiliferous Embury Shale with <i>Gastrioceras subcrenatum</i> exposed on a major fault line	SS22SE1
Hartland Quay	Hartland	SS224250	Top Crackington Formation and marine shales	SS22SW1
Bradworthy Mill Quarry	Bradworthy	SS318143	Carboniferous Bude Formation sandstone & shale with sediment features, plant remains & folding	SS31SW1
Clovelly Coast	Clovelly	SS310257	Devon (Culm) facies of the Upper Carboniferous through the Namurian Westphalian boundary with fossiliferous horizons containing goniatites	SS32NW1
Portledge Peppercombe Permian Outlier	Alwington	SS383245	Permo-Triassic 'red beds' unconformably overlying folded Bude Formation	SS32SE1
Devil's Stone, Shebbear	Shebbear	SS438100 & SS438092	Isolated Tertiary quartzite boulders of uncertain source & origin	SS40SW1
Barley Grove, Torrington	Great Torrington	SS497188	View of terrace features of the River Torridge & outcrops of Carboniferous Bude Formation sandstone & shale	SS41NE1
Rosemoor Quarry	St. Giles in the Wood	SS502175	Carboniferous Bude Formation sandstone & shale with a fold & other structural features	SS41NW1
Beam Quarry, Monkleigh	Monkleigh	SS470206	Carboniferous Bude Formation sandstone, shale & mudstone with sedimentological features, folding & river terraces	SS42SE1
Appledore Tidal Flats	Northam	SS453306	Tidal mud flat and sand deposits crossed by a shifting meandering channel	SS43SE1
Embury Harbour	Hartland	SS215197	Upper part of the Crackington Formation with examples of two of the main marine shales and a slump bed	SS21NW1

WEST DEVON and TAMAR AONB

Site Name	Parish	Grid Ref	Description	File Code
Friars Hele Cross	Meeth	SS536070	Petrockstowe Basin with Tertiary (Oligocene) fluvial clay (ball clay) sand and lignite deposits	SS50NW1
River Okement	Exbourne	SS591022	River section with associated river valley geomorphological features	SS50SE1
Solland Quarry	Sampford Courtenay	SS615021	Quarry with Devonian Limestone pebbles contained within breccia-conglomerate	SS60SW1
George And Charlotte Mine	Gulworthy	SX452698	The only preserved mine in the Tamar Valley	SX46NE2
Hole's Hole To Hooe	Bere Ferrers	SX428654	Estuarine cliffs showing the best and cleanest exposures of the Tavy Formation in its type area	SX46NW1A
Hole's Hole To Hooe	Bere Ferrers	SX425660	Estuarine cliffs showing the best and cleanest exposures of the Tavy Formation in its type area	SX46NW1B
Thorn Point to Tavy Bridge	Bere Ferrers	SX445623	Estuary shore exposures showing key exposures of the Upper Devonian succession of the Plymouth District and lower Tamar Valley	SX46SW1
South Tamar Consols	Bere Ferrers	SX435645	Representative of the geology of the Bere Alston silver-lead mines	SX46SW2
Tavistock Railway Cutting	Tavistock	SX475743	One of the most important and extensive exposures within the Upper Devonian-Lower Carboniferous sequences of West Devon	SX47SE1
St. John's Avenue Carpark	Tavistock	SX480740	Vertical sections in Lower Carboniferous succession	SX47SE2
Wheal Anna Maria	Gulworthy	SX426736	Copper mine with evidence of chalcopyrite	SX47SW1A
Wheal Anna Maria	Gulworthy	SX426734	Copper mine with evidence of chalcopyrite and arsenopyrite	SX47SW1B
Bedford United Mine	Gulworthy	SX441726	The most diverse range of copper secondary minerals in Devon	SX47SW2
Fremontor Mine	Gulworthy	SX424724	The only surface exposures of Gunnislake granite body in Devon	SX47SW3
Coryton Quarry	Coryton	SX466849	Quarry showing Lower Carboniferous slate of good quality	SX48SE1
Chillaton and Hogstor Mine	Milton Abbot	SX438811	Former manganese mine with pyrolusite, rhodonite and rhodochrosite	SX48SW1
South Tawton Quarries	South Tawton	SX658947 & SX657951	Quarries with exposure of Meldon Chert Formation limestones. Woodland & areas of water	SX69SE2

DARTMOOR NATIONAL PARK

Site Name	Parish	Grid Ref	Description	File Code
Virtuous Lady Mine	Buckland Monachorum	SX472697	Former copper mine famous for well crystallised minerals e.g. arsenopyrite, pyrite, anatase and capped quartz	SX46NE1
Legis Tor, Hen Tor	Sheepstor	SX570655	Granite tors with elvan dykes	SX56NE1
Great Trowelsworthy Tors	Shaugh Prior	SX578644	A fine exposure of the trowelworthite Dartmoor Granite	SX56SE1
Dewerstone	Meavy	SX536638	Fine exposures of small feldspar megacrystic variant of the Dartmoor Granite	SX56SW2

Sweltor & Foggintor Quarries	Dartmoor Forest	SX566735	Quarry with typical non-megacrystic and megacrystic granite	SX57NW1
Wheal Friendship	Mary Tavy	SX504793	Former copper mine and source of crystals of arsenopyrite and pyrite	SX57NW2A
Wheal Friendship	Mary Tavy	SX508793	Former copper mine and source of crystals of arsenopyrite and pyrite	SX57NW2B
Sourton Tors	Sourton	SX542898	Exposures of typical agglomerate and dolerite in the Lower Carboniferous succession north of Dartmoor	SX58NW1
Wheal Betsy	Mary Tavy	SX509811	Former mine showing examples of □arites□g□tion with rarer elements	SX58SW1
South Brent & A38 Interchange	South Brent	SX695591	Road cuttings at interchange with Middle Devonian slate and exposures of Head	SX65NE1
Wrangaton Moor Gate	Ugborough	SX676581	Good exposures of calc-silicate hornfels with a characteristic mineral assemblage	SX65NE2
Erme Valley (within the DNP)	Cornwood	SX631589		SX65NW1B
Lydia Bridge, South Brent	South Brent	SX695606	Good exposure of skarn (calcium-iron silicate)	SX66SE1
Bellever Tor	Dartmoor Forest	SX644764	Granite tor with well developed tabular jointing and gullies and clutter	SX67NW1
Powder Mills (Higher Cherry Brook)	Dartmoor Forest	SX634770	Granite quarry	SX67NW2
Corndon Tor	Widcombe in the Moor	SX686741	Fine-grained granite and megacrystic granite	SX67SE1
O Brook	Holne	SX660707	A good example of stream tin workings	SX67SW1
Gidleigh Tor	Gidleigh	SX671877	The only location where aplitic rock of possible sedimentary origin may be seen clearly	SX68NE1
Golden Dagger Mine	Manaton	SX680803	A good example of a Dartmoor tin mine with both open workings and underground mining	SX68SE1
Birch Tor & Vitifer	North Bovey	SX681810	Probably the best example of a major Dartmoor tin working	SX68SE2
Ramsley Mine	South Tawton	SX651931	Former Copper mine with mine dumps on a moorland hillside	SX69SE1
South Tawton Quarries	South Tawton	SX658947 & SX657951	Quarries with exposure of Meldon Chert Formation limestones. Woodland & areas of water	SX69SE2
Belstone Cleave & Ivy Tor	South Tawton	SX627935	A good section in the Lower Carboniferous including the volcanoes	SX69SW1
Belstone Consols (Greenhill)	Belstone	SX632944	Mine with minerals characteristic of the metasomatic north Dartmoor mineralisation	SX69SW2
East Okement river section	Belstone	SX607938	Good exposure of Meldon Slate with Lenticles Formation	SX69SW3
Holne Road	Buckfastleigh	SX736664	Upper Devonian grey Kate Brook Slate intruded by Permian Lamprophyre, and purple and green Gurrington Slate intruded by Devonian basic rock	SX76NW1
Brookwood Mine	West Buckfastleigh	SX714675	Complex and interesting sequence of □arites□g□tion formation	SX76NW2
Slipping Stones Quarry	Ilstington	SX789764	A good example of a south Dartmoor copper mine	SX77NE1
Yarner (Yarrow) Mine	Bovey Tracey	SX782783	A good example of a south Dartmoor copper mine	SX77NE2
Bonehill Rocks	Widcombe in the Moor	SX731774	A good example of xenoliths and coarsely megacrystic granite	SX77NW1

Ramshorn Down	Bickington	SX790740	A good exposure of the Mount Ararat Chert and the Rora Slate	SX77SE1
Lurgecombe	Ashburton	SX756713	Good exposure of lamprophyre dyke	SX77SE2
Holne Bridge	Holne	SX730705	The best example of a thrust relationship in Dartmoor	SX77SW1
Leigh Tor	Widecombe in the Moor	SX711714	A good example of quartz/tourmaline rock □arites□g outside the granite	SX77SW2
Blackingstone Rock	Bridford	SX786856	Large tor-type outcrop of Dartmoor granite	SX78NE1
Higher Knowle Wood	Lustleigh	SX790808	A well exposed example of Palagocene fluviatile deposits	SX78SE1
Wormhill Bridge	North Bovey	SX720847	A rare exposure of a NW-SE faulting cutting the granite	SX78SW1
Blackaller Quarries	Drewsteignton	SX730911	?	SX79SW1
Parford Wood, Drewsteignton	Drewsteignton	SX713902	An interesting example of Tertiary alluvial tin working	SX79SW2
Coombe Farm Quarry	Drewsteignton	SX719900	Megacrystic granite in contact with hornfels	SX79SW3
Bridford Barytes Quarry	Bridford	SX829865	A good section in Teign Chert and one of the few examples of a □arites vein	SX88NW1
Heltor Rock	Bridford	SX800870	A granite tor with megacrystic granite	SX88NW2
Scatter Rock Quarry & Scatter Rock	Bridford	SX822856	Important locality for calc-silicate mineralisation	SX88NW3
Great Rock Mine	Hennock	SX827815	Granite containing micaceous haematite	SX88SW3

EXMOOR NATIONAL PARK

Site Name	Parish	Grid Ref	Description	File Code
Wild Pear Beach	Combe Martin	SS5820414778	Devonian Wild Pear Slates and Hangman Grits	SS54NE2
Combe Martin Point To Lester Point	Combe Martin	SS5761714741	Type locality for Devonian Lester Slates and Sandstones	SS54NE3
Woody Bay	Martinhoe	SS6768514899	Transition Lynton Beds – Hangman Grits	SS64NE2
Heddons Mouth And River	Martinhoe	SS6554914965	Transition Lynton Slates – Hangman Grits; fossils and sedimentary structures including good convolute bedding	SS64NE3
Heddon Valley	Martinhoe	SS6548414909	Valley-side screes associated with the Hangman Grits	SS64NE4
Great Burland	Martinhoe	SS6670514940	Transition Lynton Slates – Hangman Grits	SS64NE5
Lee Bay	Martinhoe/Lynton and Lynmouth	SS6937914918	Devonian Lynton Slates; sedimentology and trace fossils	SS64NE6
Holdstone Down	Combe Martin	SS6198914770	Periglacial polygonal soil patterns	SS64NW7
Challacombe Roadside	Challacombe	SS6957914106	Devonian Kintisbury Slates	SS64SE1
Balls Cross	North Molton	SS7709213135	Sandstone slopes, north-south gorges transecting Variscan structures	SS73SE1
Shilstone	Brendon	SS7617314674	Active goyle with exposures of Hangman Grits of sedimentological interest	SS74NE4

Barbrook Road Cutting	Lynton and Lynmouth	SS7044914773	Devonian Lynton Beds leading into the Hollowbrook Formation of the Hangman Sandstone Group	SS74NW1
Cheriton	Brendon	SS7385814642	Devon Hangman Grits	SS74NW10
Lynmouth Seafront	Lynton and Lynmouth	SS7199514981	Devonian Lynmouth Slate; sedimentological interest	SS74NW11
East Lyn Group	Lynton and Lynmouth	SS7319814910	Devonian Lynton Slates and Hangman Grits	SS74NW2A
East Lyn Group	Lynton and Lynmouth	SS7326814884	Devonian Lynton Slates and Hangman Grits	SS74NW2B
East Lyn Group	Lynton and Lynmouth	SS7339614870	Devonian Lynton Slates and Hangman Grits	SS74NW2C
East Lyn Group	Countisbury	SS7452614880	Devonian Lynton Slates and Hangman Grits	SS74NW2D
East Lyn Group	Lynton and Lynmouth	SS7340014905	Devonian Lynton Slates and Hangman Grits	SS74NW2E
East Lyn Group	Countisbury	SS7455014885	Devonian Lynton Slates and Hangman Grits	SS74NW2F
East Lyn Group	Lynton and Lynmouth	SS7440014886	Devonian Lynton Slates and Hangman Grits	SS74NW2G
East Lyn Group	Brendon	SS7460014860	Devonian Lynton Slates and Hangman Grits	SS74NW2H
East Lyn Group	Countisbury	SS7472014874	Devonian Lynton Slates and Hangman Grits	SS74NW2I
East Lyn Group	Brendon	SS7430014810	Devonian Lynton Slates and Hangman Grits	SS74NW2J
East Lyn Group	Lynton and Lynmouth	SS7430014820	Devonian Lynton Slates and Hangman Grits	SS74NW2K
East Lyn Group	Lynton and Lynmouth	SS7290014900	Devonian Lynton Slates and Hangman Grits	SS74NW2L
Point Perilous Lynmouth	Lynton and Lynmouth	SS7287214964	Devonian Lynton Slates; sedimentology and fossils	SS74NW3
Ninney Well Bay	Lynton and Lynmouth	SS7347114962	Lynton-East Lyn Fault exposed in cliffs bringing Devonian Lynton Slates against Hangman Grits	SS74NW5
Valley Of Rocks	Lynton and Lynmouth	SS7117014952	Devonian Lynton Slates; sedimentology and fossils	SS74NW6
Shallowford	Lynton and Lynmouth	SS7134714519	Dip and scarp topography	SS74NW7
Glen Lyn Gorge	Lynton and Lynmouth	SS7224914918	Devonian Lynton slates exposed	SS74NW8
The Foreland	Countisbury	SS7477615027	Devon Hangman Grits including plant remains	SS75SE1
Silliere Sands	Lynton and Lynmouth	SS7412514983	Devon Hangman Grits with sedimentological and tectonic interest	SS79NW9
